

TEETH ARE NOT JUST COSMETIC

I will only ever have two teeth because I was born with **ectodermal dysplasia**. **BUT**

I need teeth to help me chew, eat and digest nutritious food so I can grow.

I need teeth in order to speak words clearly.

I need teeth to help me smile without being made fun of.

Insurance companies say teeth are cosmetic.

Because of that, my parents and I will have to spend about \$150,000 in my lifetime for dentures and dental implants so that I always have teeth.

**DO YOU
STILL THINK
TEETH ARE
COSMETIC?**
